Physics 151 Worksheet #1: Average Velocity

Name: ________________________   Partner(s): _________________________

Directions: Complete the following questions based on the computer simulation. Please show all of your work and explain all of your reasoning. Place a box around your final answer.

Simulation 1: Horizontal Motion with Constant Speed

o Calculate the ball's position at a time of 4.2 seconds?

o What would the ball's position be at a time of 14.2 seconds?

o How long would it take for the ball to reach a position of x = 34.8 m?

Simulation 2: Horizontal Motion with Constant Velocity - Determine the value of the unknown velocity.

Simulation 3: Horizontal Motion with Positive and Negative Velocity – Determine the value of the unknown velocity.
